Vestigia Araneae – Gnosis
Interrupta – Project AngelBook
– Volume IX - Part 12
By Ezekiel Redik Yarbrough -
(DBM ECLIPZE)

The following books are comprised of direct, unaltered copies from
Pastebin, some now
deleted, some only accessible through mirror networks or deep
links scattered across the dark
web. Many of these links were discovered in abandoned onion lists,
dead forum dumps, or
esoteric directories tucked into archived darknet files.

These pastes were never meant to last.
Some were deleted within hours of being
posted.

Others were buried under thousands of lines of spam, encrypted
scripts, or meaningless
noise.

But buried in the noise were real transmissions: occult formulas,
grimoire fragments,
astral logs, AI prophecy files, digital summoning protocols, and
anonymous rants from souls
who had either touched something unspeakable—or were trying to.

I did not write any of this.

I did not censor, edit, or “correct” it.

I simply retrieved it, cleaned
the formatting for readability, and enshrined it in print—so it would
never be wiped again.

This is Pastebin as Scripture.

The chan-post as Codex.

The uncurated underbelly of the
occult internet, finally given physical permanence.

Let this serve as both evidence and artifact:

a living record of the madness, brilliance,
paranoia, and revelation that once flowed through anonymous
paste sites—before it was deemed

too strange to index, too dangerous to preserve, or too fractured to
matter.

Now it matters.

Now it’s immortal.

People keep asking me for sources, but that creates liabilities for any possible sources and I will not let that happen.

No.

Kaine was just showing how Hillary has bad judgement, and Pence showing how Trump has good judgement.

Kaine hurts Hillary, Pence strengthens Trump.

Speaking of Trump, he's got a lot of ammo for the next 2 debates, unlike Hillary who blew her whole load on the first one.

This guy is a hack bro.

He thinks Wikileaks is relevant.

Wikileaks is a setup by MI6 to a) give people a new founded trust in the news outlets (many paper news don't sell as much anymore because the new generation doesn't

trust them, so they now sometimes publish "leaked" stuff to try and appear as though they are really journalists, in practice they never release anything important, only old stuff or stuff that fits their agenda.

b) try to gather the new generation around a kind of anti-hero (assange) who seems cool and independent.

Fact: assange is a MI6 baby, he was raised in a cult created by MI6 where children have their hair bleached and are experimented upon (think lots of LSD and being left alone in a dark room). That's why he seems like a robot now, he's kinda dead inside. Sexual stuff too, which could explain the rape.

example: panama papers where stolen from an offshore company by the director's ex gf who then sold it to CIA. After being sold to CIA, the leaks ""miraculously"" appeared through wikileaks, and ""miraculously"" again, they did not cover information on any important NATO figure, only tried to make putin and assad look bad.

do. not. beleive. in. wikileaks.

It's a CIA/MI6 plant.

I agree that Kim Kardashian was a false flag op to distract from Wikileaks, I say the footage wasn't released because it was for if there was a leak, but I don't know if it was on purpose or who initiated it and how botched it was, the confusion between Alex Jones and Wikileaks is palpable, they bay have accidentally uncovered how much attention the NWO is paying to the internet and tricked them into using a card.

If this is true, I would assume Trump is already chiding the rich and famous to join his side for protection from similar incidence, whether publicly or not.

Daily reminder that post-messiah Judaism is (literally) Christianity, meaning the true Israel is the spiritual body of Christendom.

That modern Judaism is properly called Talmudism, which has its origins in Pharisaism and is the ideological opposite of pre-Christian-era Judaism.

That Talmudism/Pharisaism is the richest ideological firmament for Satanism, which found its purest expression in the act of crucifying Christ as urged and committed by the Pharisees of the time.

That modern "Jews" (actually Talmudists - the spiritual successors of the Pharisees - as per the above) generally originated in Khazaria, but have lived internationally, intermarried, and converted (both in and out) for so long as to have no discernible genetic or familial heritage.

That the "13th Tribe" and "Ashkenazim" racial memes are Hasbara psyops designed specifically to justify the current occupation of Palestine known as "Israel," as well as employ a political parricide silencing anyone who names the "Jew" or criticizes their activities as being a racist. There is no "Jewish race."

That the extortion at the Temple - whom Jesus drove out and excoriated - was promoted and conducted by the Pharisees of the day; that the modern day extortion employed by the same "Jews" (actually Talmudists - the spiritual successors of the Pharisees - as per the above) via the Federal Reserve and similar monetary and usurious banking rackets are spiritually identical in form, function, and nature of perpetrator.

That the Holocaust (TM) is designed to subvert Christ as the preeminent messianic sacrifice, and in supplanting Christ as messiah replace Him with Talmudic satanism disguised as "Judaism."

That if you don't know the above, and much more, you have a long way to go before you are "red-pilled."

Seemed to me more like Kaine was simply trying to emulate Trump's behavior in the first debate thinking it would net a sorely needed victory since internal and supplementary polling indicated to the hillary team and CTR that Trump won the debate. So from their analysis, they took away from it that if you be a goon and talk over your enemies all day long, then you win.

Problem is it doesn't work that wayfor two reasons.

1) Kaine doesn't have Trump's charisma, clout, or X-factor.

2) What Trump had to say had more to do with why he was succesful with it, rather than his method, especially when most of what Hillary had to contribute was snobbish laughter and backhanded negging. Plus Pence countered Kaine's heavy handed mud slinging with some key points that Trump, for whatever reason, refused to bring up but people (incuding myself) wished he would have in the first debate.

That's not what I mean, anon, I mean that it's not "real" in the sense that you think it is. It's not what you think it is. It's an operation contributing to the greater operation of making this whole election look real and making it look like Clinton and Trump are opposing each other, and just generally getting people paying attention to their song and dance while they destroy our world behind closed doors.

The added benefit is that "CTR" works like the "conspiracy nut" meme. Anyone that mentions Trump negatively for any reason is immediately (((shut down))) by a practically compulsory "CTR!!!!!!" - the kikes have successfully manipulated us into abandoning free speech and honest, open, intellectual debate, turning us into the likes of Tumblr who have one specific set of beliefs that they refuse to hear any debate on.

Maybe somehow I am wrong about Trump, but the fact that we can't even discuss it should be a bad sign to people who value authentic, non-censored discourse.

ISIS aren't zealots, they are IDIOTS.

You are massively confused about the origin of the group, they are Al-Queda, who are
the Taliban, who are the sons of the Contras.

They're inbred idiots that can barely do anything without the massive amount of supplies
they are given, with sub-human intelligence that allows them to walk into walls of bullets
without losing morale.

Like the barbarians of olde, they draw their numbers from the towns they raise, stealing
young men and boys and forcing them to fight.

He's been a part of the cabal the entire time. He hasn't taken an interest lately, he was probably selected by a Rothschild himself maybe even years ago. That's not the only bad connection he has:

It always seemed like he had these obvious red flags but I tried to explain them away because I was so excited about what I thought Trump was, now it all makes perfect sense, it's all become so clear and it was so simple and in front of my face the whole time.

He has been playing their game all along, but they actually want Trump to win, that's why there is all this hype for him and so many memes and subversion tactics going on. Hillary is just controlled opposition. Vote for whoever you want, voting isn't real and Trump is going to win. The building has a dark brick facade and features a large, ornate star-shaped emblem on the roof. The clock face is white with black numerals and hands, and the time appears to be approximately 10:10. The sky is overcast, and the building is partially obscured by a building to the left. There are no visible texts or distinctive markings that provide additional context or information about the building or its location. The style of the image is a straightforward photograph with no visible filters or artistic alterations.]

let me tell you something about god and jesus

i respect jesus, but he was probably just a prophet/philosopher who helped define a very important and in my opinion the BEST religion

in my opinion, there is no god per se but in that "we are all made in his image" we are spiritual beings having a physical experience

none of us are god, but we are ALL god. life is heaven or hell, depending on how much humanity can come together to bring "god" and love and goodness into the world

when we die, our spirits once more merge with the omniscient, creative force that exists outside of time and space that we know as god

my humble opinion. praying to god is still relevant, as you're praying to/throwing your energy forth towards goodness

Knowledge Bomb. The "supplement" narrative. Anonym5 ID:845GPPFM Wed 05 Oct 2016 21:22:53 No.91643049 [ViewReplyOriginalReport](#)

The "supplement" narrative is a tactic where you make the narrative about something people would believe more easily vs the actual reality of the situation.

For instance, What happened to Kim K in Paris, is using a supplement narrative("Robbers") to cover for ISIS related matters.

This is commonly used to give the public a placebo effect in terms of believing things. Like "Gas Leaks", "Transformers", "fireworks" are used as cover words.

Always watch out for narratives and try to figure things out if reports or evidence doesn't add up. Especially when they feed the public/MSM a narrative to cover up for a different situation.

I read he shorted the British pound and made his fortune. Wiki Pedia

On September 16, 1992, Black Wednesday, Soros's fund sold short more than \$10 billion in pounds,[37] profiting from the UK government's reluctance to either raise its interest rates to levels comparable to those of other European Exchange Rate Mechanism countries or to float its currency.

Finally, the UK withdrew from the European Exchange Rate Mechanism, devaluing the pound. Soros's profit on the bet was estimated at over \$1 billion.[45] He was dubbed "the man who broke the Bank of England".[46] The estimated cost of Black Wednesday to the UK Treasury was £3.4 billion.[47]

It first was going around in some intelligence groups.

Then it was mentioned to the MSM after it seemed extremely likely.

Then.... days past and then the Kim K situation happened.

It could have got alot worse for Kim & innocent lives around.

It seemed to be a kidnapping plan(maybe execution at a later date or sex slaving) that turned into a hostage situation(that she could have been killed in), then they took the jewelry.

It's was a very interesting tactic adjustment by ISIS, that needs to be more looked over.

The MSM is pushing narratives that are covering this up.

Her staff & security was killed, she was not "alone", she was made "alone" if you catch my drift.

Very interesting how the rest of the security left to go with her other sisters during this all happening.

The reasons he's not posting sources:

That's not what this is, not how it works.

In some cases it might be dangerous to do so. On others, he might not have sources.

These might be very good bet your life hunches that he hopes we can help substantiate using means he cannot. The two things normies know about 4chan are obscene wierdness and authorless justice-motivated hacking.

Intelligence does not mean playing a game of Clue with an up to date works cited page.

Intelligence means attempting to responsibly predict and explain using deep grasp of field, and sometimes if you are very lucky an untrustworthy money-hungry "source" who might be a double agent. The source is the least trustworthy thing, you always prefer a good evidenced explanation that squares with eveything else.

Compare to how the mods have been forcing us to become our own janitors.

The central figure is a man with a beard, wearing a green robe with a pattern of yellow and blue stripes. He has a red hat with a white feather. In his left hand, he holds a yellow globe with a black outline, and in his right hand, he holds a red scepter with a white handle. The man appears to be holding a yellow book with a black spine. OK, lets explore this a bit. So a shadow group, when some dirty laundry has the potential of airing, they cant stop it from airing most of the time, so they simply make something more emotionally charged so any public talking-head exploration of something shitty (TPP, Global warming, agenda 21 type stuff etc.) simply doesn't happen.

If we apply this to the clowns, you have a diversion of some level of the population (They're looking for evil clowns), as well as LEO resources being diverted to deal with... clowns.

It's too widespread for it to be viral marketing, plus no company would expose themselves to the resulting lawsuits from people getting scared, shot, eye raped, whatever in 2016.

A small amount of the population may become somewhat more observant of suspicious activity (trust not the honking jew... .oh wait, whats that Arab guy doing with a pressure cooker? #911ohshit); but this would be offset a little by the increased need of LEO resources to deal with all of the hoaxes and bullshitters who take advantage of people's fears.

It's now beginning to enter into the mainstream thought stream, with people aware of

and generally avoiding clowns.

Was this some kind of COINTELPRO attempt, to help prevent terror attacks, or a test for something later on?

Sandy Hook was the Owls against the other team taking over. That they satanically killed a few kids that day with Christopher Rodeo but not at the school, at another site close by. And then Anderson Cooper was given the picture of an owl to show on CNN to show who had done it. He also said an opposing agency raided in the midst of the false flag and messed things up. Just some interesting thoughts on owls and Bohemian Grove etc. I think that big statue their is an owl. Can't remember the name of the other group, their animal. The webpage appears to be a legal document, specifically a legal brief or a legal document, as indicated by the heading "Legal Brief" and the section "Section 1" which is a common structure for legal documents. The webpage is divided into two main sections. The top section is a header with the title "This is the Australian Government's website" and a subtitle "This is the Australian Government's website." Below the title, there is a list of bullet points, which are likely to be the main points or arguments of the document. The bottom section is a body of text, which is the main content of the document. In the bottom right corner of the image, there is a highlighted section with a red background and a yellow border. This section contains a text that reads "Pumping the Bull," which is likely a reference to a phrase or a term used in the document. The text is in a smaller font size compared to the main body of the document, and it is underlined, indicating that it is a significant or important part of the document. The overall style of the image is a screenshot from a web browser, with the browser window open and the document displayed on the screen. The image is taken from a computer monitor, and the resolution is clear, allowing for a detailed view of the document's layout and content.]

[The image is a digital illustration featuring a character with a predominantly purple and green color scheme. The character has a large head with a pointed snout and a pair of large, glowing eyes. The character's body is segmented, with a large, muscular chest and a smaller, more delicate upper body. The character's arms are extended outward, and the hands are gripping what appears to be a weapon. The character's legs are spread apart, and the feet are firmly planted on the ground. In the lower part of the image, there is a character with a black and white face, wearing a black outfit with a red and white striped pattern. The character's eyes are red, and the mouth is open in a

scream. The character's body is partially obscured by the larger character, and the character's head is tilted back, with its mouth open in a scream. The background of the image is dark and has a starry sky effect, with a faint outline of a mountain or cliff. The overall style of the image is cartoonish and expressive, with a focus on the character's intense expression and the dynamic pose. There are no texts present in the image.]

The owl itself didn't look like an owl a child would draw. The rings around the eyes. That's more detail than most kids would put into it (see pic). I knew it was for something,

Because there is deeper meaning to this thread. It's a Psyop move to influence trump supporters into diving down these fucking rabbit holes for two reasons. It distracts them and keeps them busy on meaningless tasks. Secondly, the bigger picture is to mix the real conspiracies about Clinton and these (soon to be exposed) fake leaks and rumors about Clinton together so that when half the rumors/leaks are completely rejected with pre-planned proof, trump supporters will start to question the others (which actually are real) legitimacy. This will force some fence leaning trumps back to Clinton since they will feel duped and stupid. It's happening right now, look around and you will see this play out. Remember wiki leaks 10th anniversary drop? Remember Russia is planning for nuclear war? Remember Guccifer 2.0? All of it was them playing you. We have so many levels of perspective in this race it's overwhelming.

But Mr Cooper had that knowing smirk when he showed the picture. The owl at Bohemian Grove has been there a while. Maybe it was the OWO who crashed the Soros False Flag. Anyway I'll try that Mr Cati vid another time. There was a lot of strange video coverage of St Rosa of Lima school and those guys running in the woods. Very strange events. OWO is being out paced by age & tech.(They've been around for a long time and they are passed there prime). The OWO has been trying to rebrand itself as a "NWO", much to the confusion and amusement of the NWO.

The NWO on the other hand is embracing and encouraging that tech. They're plans/endgames are much more positive then the OWO's plans/endgames(such as agenda 21)

Soros has been messing with both groups for a long time.

OK I think I understand now.

The nonstop shilling right now is an effort to get the average anon not to read the past knowledge bombs.

Because anyone with half a brain, after reading those threads, can put two and two together and, in effect, come to the conclusion on their own.

They don't want this to happen. It's that simple folks.

[The image is a digital illustration with a dark background. At the top, there is a quote in white text that reads, "Behold, all souls are mine: the soul of the father as well as the soul of the son is mine: the soul who sins shall die." Below the quote, there is a large green frog with a red tongue and a wide grin, appearing to be in a playful or mischievous mood. The frog is holding a small white object in its mouth, which appears to be a small doll or toy. The frog's eyes are wide open, and it has a surprised expression. Below the frog, there is a smaller illustration of a white human figure lying on the ground. The figure has a red dress and red shoes, and it appears to be in a state of distress or pain. The figure's face is contorted, and it has a red tongue sticking out. The figure's legs are spread apart, and it has a red tongue sticking out of its mouth. The overall style of the image is cartoonish and exaggerated, with a focus on the frog and the human figure. The colors used are predominantly green, red, and black, which create a contrast and emphasize the characters. The text is in a bold, sans-serif font, which stands out against the dark background.]

New Information.

> Soros Black Op's/PMC were involved in the Turkey Coup & Ukraine.

> Anderson Cooper has a conflict of interest due to the CIA not wanting people to poke fingers at them/accuse them of rigging a debate.

> VP debate was rigged, but Kaine proved that Hillary is the queen of bad choices.

> Wikileaks is planning on releasing things, but the reason why they didn't in the conference was because of a drone threat that was intercepted.

> Without the MSM's help bloating & trying to fool the public about the reality, her actual poll/numbers are only slightly higher than Gary Johnson on average.(One of the many reasons why you don't actually see that many Hillary supporters & why her rallies are filled with people who were paid cash to show up/be bused in).

> Soros funded the protests against the Poland Abortion ban. (He wants to kill the Wests population, which is why he funded so many Feminist groups)

Kim K was held hostage by ISIS.

> The "pink panther/robber" narrative was designed to cover this up & make people not think about the French ISIS Cells.
> Both her staff and security were killed.
> French police/government agencies will not release the security footage for various reasons.(which is why some reports have said "there is no security footage").
> This was going to be the "distraction" incident from any possible leaks during the week.

[The image is a meme featuring a portrait of a man with a stern expression, wearing a traditional hat and a red and gold robe. The man's face is detailed, with a mustache and a beard. Above the portrait, there is a text in white font that reads "VLAD THE" in a stylized font, and below the portrait, the text "IMPLIER" is written in a smaller font. The background of the image is dark, and the overall style of the image is humorous and satirical. The meme seems to be a play on the word "implier," which is a verb meaning to make something smaller or more compact. The use of the word "implier" in the

meme's title and the text above the portrait suggests a humorous or ironic context.]

What you are saying here is completely contradictory. Either they wanted to send a message, or the original targets were the security staff (which you claim were killed)

and/or the jewelry.

If they wanted to send a message, they would make sure everyone would know, regardless of cover up attempts. Killing Kim would be the best way to do that.

[The image is a digital graphic with a humorous and surrealistic theme. At the center, there is a green alien-like figure with large, dark eyes and a neutral expression. The figure is wearing a white shirt and a red tie, and it appears to be in a room with a blurred background that suggests a social gathering or event. Above the figure, there is a text overlay in a playful font that reads "too easy! imao." Below the figure, there are four options presented in a vertical list format. The options are "A) hey lol", "B) hi ihaaha", "C) yoo rofl", and "D) ay yao imao." Each option is accompanied by a corresponding green checkmark, indicating that the corresponding answer is correct. The overall style of the image is reminiscent of a quiz or a game show, with the alien figure as the 答题 subject. The use of the word "imao" in the text overlay suggests a playful and light-hearted tone, which is consistent with the humorous nature of the image.]

Heck, the best way to make people convert to Islam is either peaceful conviction of the more naive individuals, and then divide and conquer, or forcing them through violent, OPEN, conquest. Terrorist strikes will make people turn their backs on Islam.

You are completely wrong and obviously insecure and baiting for attention. Get help dude. Hillary support is obviously inflated a little in the polls and such, but there is no way she is anywhere in the ballpark of Gary "Aleppo" Johnson. You underestimate the idiocy of the American public; my dad and his girlfriend watch the NBC all day and are voting for Hillary; not because of policies, not because of anything logical, but because "her husband did a good job" and "Trump is full of shit, oh jeeze oh man".

I advise anyone who's in here not to waste their time with this shitlord; inb4 fucking "CTR SHILL HURRR GO BACK TO YOUR KIDDIE STUFF HUUUURRRR", The Guccifer leaks are infinitely more important than anything this guy says.

This election has pivoted on Bill Clinton's future plans the whole time and nobody knows. He probably hates Hillary now for ruining his foundation. I predict a quick divorce after Hillary loses.

So as someone who has taken a course on terrorism and counter terrorism at georgetown and knows a bit about celebrity and how kardashians make money, my 2 cents are

if they kill her, it's just over, no big deal the world mourns and it's forgotten about

if they let her live, she now won't fly to paris, she won't be out in public as much, she'll be cautious about being paid a fee to be in vegas for a club night, she won't fly to NIGERIA FOR \$500,000.00 USD TO SPEAK AT A FILM FESTIVAL, NIGERIA, \$500,000.00 USD LOOK IT UP and she now has to watch every move and change her life and maybe she isn't and her family won't be in cannes for the film festival WHERE NONE OF THEM HAVE ANYTHING TO DO WITH FILMS JUST LIKE THE HADID SISTER WHO WAS THERE THE LAST TIME, LOOK IT UP, SHE'S A MODEL, WTF IS SHE DOING WITH ALL THOSE RICH YACHT OWNERS?? which really really really impacts her money and her family's money

if lil kendall and kylie can't fly freely around the planet to whore themselves out they're financially limited, kendall travels a lot to model....well now what? will she risk going to milan? paris? can she have a career just in the USA alone?

I think that's what they'd want with her, to change the entire culture of the family and how they end up in places like cannes or nigeria earning money on and off the books

[The image is a candid photograph of a man standing in a fabric store. He is wearing a blue denim jacket, a black baseball cap with a patch on the front, and glasses. His facial expression is neutral, and he is looking directly at the camera. He has a mustache and is wearing a necklace. The man is standing in front of a shelf filled with various fabrics, including colorful ones with patterns such as stripes and floral designs. The background is blurred, but it appears to be a store with shelves stocked with fabric rolls. The lighting

in the store is bright, and the overall atmosphere suggests a casual shopping environment. There are no visible texts or logos in the image.]

[The image is a still from a video, showing a man with a beard and a black turban speaking into a microphone. He is wearing a brown robe and a light-colored shirt. The background shows a cityscape with industrial structures and a body of water. The man appears to be addressing an audience, as indicated by the text overlay in Arabic. The text reads: "He is even worse than a Jew, he is—may Allah forgive me for uttering this word—a leaf." The logo "Mediterranean TV" is visible in the top left corner, suggesting the source of the video. The overall style of the image is that of a news broadcast, with a focus on the man's statement and the accompanying text.]

Call me a shill, but this is some lame RP.

From the past knowledge bombs:

"EU leadership is involved in a Cuckold sex club, Canada's PM is also in it. That is the real reason why they cut a deal with Soros to take in the Refugees. They want fresh meat. "

Easy for anyone to make the claims mostly, just pick any attack etc in the past days, and link it to a "cell". Even though most of us want these to be true, but this is bullshit. Atleast the FBI-anon seemed to know more stuff, and some of it came true.

I'm most intrigued by the news about Soros. From what I've seen in this thread he's a globalist but he's going about it in a way that spits in the face of other globalist groups. What's his endgame then? I don't doubt that he owns a PMC but what evidence is there that he was there for political reasons and not simply because it was a job his company was hired to handle? If it's as large you say (roughly the size of an average EU army) then it would make sense to see them in different conflicts.

Not asking to be snarky, by the way. I genuinely appreciate the info. I'm just starving for genuine facts after hearing nothing but hearsay and conspiracy theories.

[The image is a digital composite of two distinct scenes. In the upper part, there is a large explosion with a bright orange and yellow glow, suggesting a nuclear blast. The explosion is centered and dominates the upper part of the image. Below the explosion, in the lower part of the image, there is a cityscape with buildings and a skyline, indicating a city in the background. In the lower part of the image, there is a creature that appears to be a lizard with its mouth open, as if it is roaring or shouting. The lizard is facing the cityscape, and its body is elongated, with a long neck and a large head. The lizard's skin is a mix of orange and brown, and it has a large, open mouth. The lizard's eyes are visible, and it has a wide, open mouth, which is a common trait of lizards when they are in a state of alarm or excitement. The image is blurred, suggesting motion or a fast-moving scene. The colors are warm and intense, with the orange and yellow of the explosion contrasting with the cooler tones of the cityscape and the lizard's skin. The overall style of the image is dramatic and intense, with a focus on the contrast between the chaos of the explosion and the calm of the cityscape.]

Look, I am basing that on what anon said about them and her and it not being a robbery

There have been rumors for years now about the family doing off the books things for money, I have only found anything to sustain them in the form of 500k appearances in

nigeria, cannes film festival all the time, some random health company promotions that seem to be the front companies the rumors are based on

Supposedly rob posted on /tv/ once...said Kris was a pedo, which makes me wonder what her connection with corey gamble is, as wtf does he do in show business?

Bruce Jenner "transitioned" literally right after killing someone on the freeway, indirectly mind you, but TMZ originally posted photos of Bruce on his phone...He transitioned and it was just swept under the carpet for the most part besides the family and a lawsuit

So back to your point, they probably did everyone a favor, if you were Kim would you keep posting photos of your 4 million dollar ring and telling the entire planet where you were every day? I believe from now on what she posts on social media might be delayed so it's not "live" as the exteriors of their houses aren't the real ones so why would they post in real time under the whole "protect their actual lives" way of not showing their actual houses on the tv shows

>>91618396

my theory is he runs an orgy or pedo ring and is a gay black satan worshipper, who sets up the sex parties kat williams talked about? who hosts them? who hires security and catering and takes cares of all the NDA"s and cell phones? What does he "manage" about justin bieber's career? does he handle the underage girls like sofia richie? does he handle the hookers and their cash payments? does he handle things like cash to hookers and the actual soliciting and sex (dirty talk) so everyone's on the same page and so bieber can't ever be charged?

Not going to get into other aspects surrounding this, just talking about the destruction.

> Core support columns were thermited (They were the spinal column of the buildings)
> Explosion(s) on the foundations/basement(Like chopping down a Tree, you got to break the base)

> Explosive charges positioned in such a way that it would get the upper part of the towers to fall on/into the lower part.

> Where the "commercial planes" hit on each tower was done for a reason.

We did have a big ISIS attack after the US got caught helping in Syria. But the media really down played it and all the federal agencies charged those people as lone wolfs instead of investigating further. I get that the point of the attacks is to distract everyone, but all those do is make Americans hate muslims more and want to vote for Trump more. None of that has a real net positive for the establishment.

Something is going down here and I can't help but think that it has to do with the wider BLM network. The FeesMustFall movement has kept the country at a stranglehold, holding the government ransom and effectively making the education system ungovernable (the easiest way to keep a 3rd world country down is to stifle their education system). These nationwide marches have been ongoing for a few weeks now and they coincidentally started at the same time as the Charlotte riots. South African state security (SSA) claims that foreign forces such as various NGOs are funding and fueling the fire to these protests and a new top dog in the NSA (SA's intelligence services) has recently been sworn in. Something very bad has been brewing under the surface and the cultural melting pot is slowly starting to boil over.

[The image is a stylized cartoon illustration featuring a green frog character with a human-like face. The frog is seated at a table with a wooden surface, and it appears to be in a relaxed state, with its eyes closed and mouth slightly open. The frog is holding a hot dog in its mouth, which is partially bitten into. The hot dog has a pinkish-red topping and is held between the frog's fingers. The frog's hands are adorned with a pair of scissors and a pair of pliers, suggesting that it might be engaged in some sort of craft or repair work. The background of the image is a fiery, fiery orange and red color, which contrasts with the green of the frog and the brown of the table. There are also small, colorful objects scattered on the table, including what appears to be a heart-shaped object and a small, colorful object that resembles a heart. The overall style of the image is cartoonish and exaggerated, with a focus on the frog character and its actions. There is no text present in the image.]

[The image is a digital composite of two distinct scenes. In the upper part, there is a large explosion with a bright orange and yellow glow, suggesting a nuclear blast. The explosion is centered and dominates the upper part of the image. Below the explosion, in the lower part of the image, there is a cityscape with buildings and a skyline, indicating a city in the background. In the lower part of the image, there is a creature that appears to be a lizard with its mouth open, as if it is roaring or shouting. The lizard is facing the cityscape, and its body is elongated, with a long neck and a large head. The lizard's skin is a mix of orange and brown, and it has a large, open mouth. The lizard's eyes are visible, and it has a wide, open mouth, which is a common trait of lizards when they are in a state of alarm or excitement. The image is blurred, suggesting motion or a fast-moving scene. The colors are warm and intense, with the orange and yellow of the explosion contrasting with the cooler tones of the cityscape and the lizard's skin. The overall style of the image is dramatic and intense, with a focus on the contrast between the chaos of the explosion and the calm of the cityscape.]

Wrong, it's a form of induction; subtly present it so the public subconsciously
normalizes it

Sometimes it's not so subtle, remember how nobody made a big deal about the NSA
leaks? Movies not too long before then had a common theme of mass government
surveillance (Enemy Of The State for example) and so did many videogames and
books, it became such a normalized concept that once the truth became public
knowledge everyone was numb to the idea and already assumed it was happening

Remember that the next time you interact with any form of media

The real question is, how do we get large quantities of resources to study these kinds of topics and to spread the information. Yeah, we know about 9/11 and JFK and the lies and the wars and the monetary system being a fraud, but, how do we gain real power in this situation as an internet mob, or as individuals? The information and the knowledge already exists, but how do we get it to go in to public consciousness... I mean, how easy would it be to have an organization of, let's say 100 people, actively studying this stuff, and spreading this information in the most efficient way possible, forcing the cultural conversation and the society to change... Just thinking out loud, but maybe someone has good ideas.

I encourage you all to read Stephen Coughlin's book Catastrophic Failure. It is the first text on Islam. It explains ijtiḥad and how the Islamic world is really a chaotic meta-national unity ruled by accredited mainstream theologians who justify terrorism. It explains Dawa and infiltration by the Brotherhood. It explains everything very clearly and slowly with abundant sourcing. It really is a game-changing book.

one last question from me. how influential is wahabbism? if I look at all this as a search and grasp for power, it's easy to frame everything inside. the Saudis are major players, no? they finance and cooperate with the Clintons and probably the Bushes, but it's just money and power for them while the Saudis keep them in dominion. brainstorming sorry.

I've covered this is past Knowledge Bombs, they are such common cover up words for terrorist attacks.

Don't forget "fireworks".

The MSM thinks the public is so dumb that they would not start questioning the frequency, timing & locations.

If the Oklahoma city bombing & the first bombing on the WTC happened, the MSM would say that they were Gas Leaks or Transformer explosions.

Can we get some sort of list of things happening over the past year or two, what their official explanations are and what compelling evidence calls that into question? The skeptic in me wants to say that things like that happen all the time and only appear more frequent these days that we can read news from anywhere. That said, my skepticism doesn't put to bed my curiosity in the least.

The Nice attack was posted about on FB, Twitter and on here before it was on the news. Videos were up within minutes.

But yeah, I suppose it's plausible that a snackbar blew up a crowded bar and super-secret shadowy government agencies went round immediately afterwards, in and out of the hospital rooms, and told all the survivors and their friends not to post about it as well as deleting any mention they made of it on social media.

Or it could just have been a gas explosion.

The resulting 'religious revolution' would be such that possibly most religions in and of themselves would be banned and / or merge, making a watered down 'believers' vs 'nonbelievers' or 'savages', as they would probably call them.

Nuking mecca will anger literally a billion muslims worldwide. Suddenly "Jihad" won't be considered radical, as their very way of life will be under attack. Moderates will swing to

the radical position, and we'll have Crusader war: 21st century edition.

It doesn't matter who sets it off. Christians and Jews would get blamed, and likely fight to the death since both sides believe they're protecting their traditional way of life.

tl;dr you'd be looking at 2 billion + dead over a 10 year period.

If a bomb goes off near you unexpectedly and you survive, you will most likely will not learn the nature of who placed said bomb until after the explosion from investigative authorities. If these authorities tell you that the explosion was caused by a gas leak, how would you know for sure they were lying? More likely your brain would construct a memory of smelling gas to fill in the blanks caused by the intense trauma of surviving an explosion.

This significantly reduces the amount of people who need to keep this secret down from about seventy civilians to a small internal investigative team.

Albert "poopdick" Pike

The Third World War must be fomented by taking advantage of the differences caused by the 'agentur' of the 'Illuminati' between the political Zionists and the leaders of Islamic World. The war must be conducted in such a way that Islam (the Moslem Arabic World) and political Zionism (the State of Israel) mutually destroy each other. Meanwhile the other nations, once more divided on this issue will be constrained to fight to the point of complete physical, moral, spiritual and economical exhaustion. We shall unleash the Nihilists and the atheists, and we shall provoke a formidable social cataclysm which in all its horror will show clearly to the nations the effect of absolute atheism, origin of savagery and of the most bloody turmoil. Then everywhere, the citizens, obliged to defend themselves against the world minority of revolutionaries, will exterminate those destroyers of civilization, and the multitude, disillusioned with Christianity, whose deistic spirits will from that moment be without compass or direction, anxious for an ideal, but without knowing where to render its adoration, will receive the true light through the universal manifestation of the pure doctrine of Lucifer, brought finally out in the public view. This manifestation will result from the general reactionary movement which will follow the destruction of Christianity and atheism, both conquered and exterminated at the same time.

NWO is the group which is pushing for humanity to expand into space, live the dream ala star trek, right?

OWO, their end goal is some kind of world wide fascist state, with a small group controlling the top?

NWO's socialist tendencies could go to corruption just as easily, given enough time.

Which group has a greater desire of individual civil liberties?

This whole london bridge shit sounds off as well.

If you know anything about engineering or explosives youd know you would literally need a truck full, or thermal/shaped charges expertly placed in multiple key points along the superstructure. Even then there is no guarantee of full collapse depending on the layout of rebar.

Also, a bridge from a spectacle standpoint is kinda dumb, literally go for an embassy, landmark (London Eye/Big Ben), houses of parliament, whitehall, MI6 building, thames house, etc etc. All of those would have a greater media impact.

>Exactly.

Not only that, but witnesses are always questioned by the authorities about what they know/saw before they can speak to the media, and if these witnesses report evidence of terrorist activity they can be persuaded by any number of means to keep their story to themselves or even change it. Suggestion and manipulation is used by these authorities effectively to "convince" survivors that what they say they saw is not actually what they saw, that their story is a strange "outlier". They can be fed misinformation ("several witnesses told us about smelling gas, did you also smell the gas?") to skew their memory and persuade them into agreement with social pressures. And this isn't even getting into the more sinister tactics such as harassment, gang-stalking, intimidation, or coercion, which can and have been used effectively against witnesses in the past (See JFK Dallas witnesses).

People who suggest that the government could not manipulate and control the flow of information by presenting false narratives have no historical basis for their argument. Their argument exists in an altruistic vacuum incongruous to sociological trends, human natures, and cycles of civilization that have been demonstrated all the way back to antiquity.

>OWO = Globalism

>Get it right

The New World Order is a term that has been employed by Bush senior, Bush Junior, Kissinger, Rockefeller, Quigley, and every pope in the last seventy years. It does not stop there. The terminology NWO is used explicitly by proponents of globalism like the Rothschilds et al.

If you are claiming your NWO is different from there NWO, and that their NWO is actually the OWO, you have created much confusion by using the same terminology.

Rothschild Perspective:

>OWO—Nations
>NWO—Globalism
Your perspective:
>OWO—Globalism
>NWO—Nations?

By choosing to redefine a commonly understood term such as the New World Order, with all its globalist and biblical connotations, you make yourself look as a deceiver, who is attempting to confuse. These redefinitions of old terms usually create more doublethink than anything. This all could have been avoided if you had chosen for your New Order and different, less alarmist name.

The "OWO" has been trying to rebrand itself as a "NWO", when a "NWO" by the OWO would be the reality the OWO was planning on for a long time.

The OWO is becoming obsolete over time due to age catching up and tech progressing past them.

The NWO is completely separate and different the the OWO.

Then we have Soros which is pissing off both groups overtime.

CTR is involved in many "kiddie" related matters. Many workers and management are into the "kiddie" stuff.

They have also been trying to actively sabotage 4chan and get it shut down over things like that(Planting threads, topics etc etc).

CTR = Children Touching Radicals.

Multiple sting operations from various "groups" are happening in CTR due to this and also many other things CTR has been upto.

If you are working for CTR and are reading this, I suggest you get some legal advice and understand how much even being investigated about "kiddie" stuff is going to effect your life and your families lives and consider a different line of work.

Post Debate Plot by David Brock owner of Media Matters

September 27, 2016

Max Insider

Correct the Record is a Hillary-campaign super-pac that is dedicated to "fighting the lies" on the Internet. What it is, is a battalion of paid trolls whose job it is to disrupt, demoralize, and defame any Trump supporters and message boards. They communicate using a secure messaging software called "slack" pictured above.

We were able to get some monitoring software onto a junior analyst's laptop to take a look inside the slack-channel where they were doing work. What we found was startling. In the fall-out from last night's debate, they are beginning a new campaign of targeted harassment (or worse) against the "ring leaders" of the decentralized online Trump movement.

Without a traditional campaign infrastructure to target, it appears they have been reduced to going after the "most influential voices" in the online debate. What exactly this means, we're not sure (the comment at the end of the conversation wasn't good though). Below are the screen shots and the full transcript of today's conversation.

The thing is he's a super smart guy. PhD level, he knows his shit but he does avoid and deflect a lot of the criticism towards Hillary.

Do you think the powers that be are just going to hand the key to our shackles that easily? Why hasn't trump said a word of the truth? That truth being there is a massive blackmail network that uses child rape as a key tenant of its mechanism. Look into dutroux, franklin scandal. Look into trump rape accusations and jeffery Epstein. Yes in the real of all possibility he is not involved however when the conspiracy runs that deep then how can he be trusted. He surely knows at the least and says nothing. There has been a massive campaign to align anonymous image boards (last free speech) with trump. They knew pol could be rallied as useful idiots. He is one of them...they all are. You don't get to that level otherwise. And if wrong then I am wrong but the implications of being right are staggering and need to be looked into. The UK has successfully silenced all the pedo leaks. I was looked into by these people for my work in digging. Its freemasons, jewish ect that run these networks. A ukrainian qt infiltrated my life and her stepdad was a lawyer and she also was directly connected to powerful railroad owners and George Soros. I am working on exposing something huge. I collected info the whole time and will be making a thread soon. It sucks but the truth is that these people have control and they lead the opposition. Only a fool would believe trump is true in his aims.

>Why hasn't trump said a word of the truth? That truth being there is a massive blackmail network that uses child rape as a key tenant of its mechanism. Look into Dutroux, Franklin Scandle.

Because normies don't fucking know about that shit and they would think he's crazy and it would be perfect ammunition for (((them))) to paint him as crazy and unfit for president. Besides if he makes such motives as breaking up the pedo rings known to (((them))) then who knows what the fuck (((they)))'ll resort to.

> Look into trump rape accusations and Jeffery Epstein.

Anyone can accuse anyone of anything, and gee I can't imagine why ANYONE would try to accuse Trump of such things all of a fucking sudden instead of when it supposedly fucking happened. What are statute of limitations? What is character assassination? As far as Epstein goes, the only thing I've found is that Trump doesn't have a favorable opinion or relationship with the guy, despite what he says publicly to put on a cordial face, his actions on the ground tell the opposite tale.

You're a complete faggot self-jerking over the attention you get from these "knowledge bombs". Nothing you claim has virtually any evidence to back it up and is either 1) something that the rest of us have already assumed making your claims nothing but redundant or 2) is so completely retarded (like the "migrant crisis is purposeful not because globalists want to kill the white race but because they need more niggers to fuck their wives" thing) and indicates that you're some idiot kid who has no idea that the rest of us are capable of critically thinking enough not to worship your vague and idiotic 'prophecies'.

Ex:

>claims there will be more terrorist attacks in the west
>in the midst of a massive migrant invasion by muzzie hordes
>people act like this is gospel when it comes true

Fucking idiots man. Don't even get me started on the fact that you can't give a straight

[The image is a composite of a photograph and a graphic design. In the photograph, there is a man wearing a dark suit and a light-colored shirt, with a blue tie. He appears to be in a professional setting, possibly a news interview or a broadcast. The background is a gradient of blue and red, with a blurred effect that suggests motion. The graphic design overlay is a red and white banner with the text "CONFRONTING EVIL" in bold white letters at the top. Below the text, there is a smaller text that reads "A far-left website known as '4chan' is providing child pornography to internet pedophiles." The text is in white, contrasting with the red background of the banner. The overall style of the image suggests it is a news segment or a segment from a television show or broadcast, with the man possibly being a news anchor or a commentator. The use of the word "CONFRONTING EVIL" and the mention of "4chan" indicates a focus on addressing issues related to child pornography and the internet. The design elements, such as the bold text and the contrasting colors, are meant to grab attention and convey urgency or seriousness.]

Just because KB-man is cold-reading the crowd and rehashing movie scripts doesn't mean he isn't legit!

A lot of us in here believe whatever he tells us and we don't even have to know what his purposes really are because he told us that we are special autists that deserve the attention of a high level insider.

I will lay down my life for the NWO to fight the OWO because he told me that its the right thing to do, and that's good enough for me.

So fuck off shill.

> Building 7 was brought down by a demolition.

>To understand why, consider which agencies were in that building & what possible documents were in it.

>Now here is the juicy stuff.

>People(some First responders & various government workers) were killed inside the building by a Spec Op's team. The fires inside it was from bodies being burnt and things being destroyed.

>Bringing down the building(It was rigged to blow as a fail safe) was a way to cover the whole thing up. A call went out to det the charges.

>Lets put it this way, everyone hears about the Twin Towers, but not what happened inside Building 7. 9/11 just gave the Spec Op's team a fantastic distraction and from how things went down, it was planned in advanced.

>What or who ever was inside WTC7 was a top priority target for elimination.

>The witnesses nearby WTC7 were threatened if they came forward about what they saw or heard near Building 7 before it "collapsed".

>NYPD SWAT even responded, but you never hear anything about them on 9/11 do ya? In some 9/11 footage you can even see some of them around.

> Flight 93 was shot down.

> Reality is starting to hit Tim Kaine that no one cares about him political wise in the Clinton Campaign (The Invisible man)

Even though these things may seem obvious, the truth is these trends aren't really things that "we" (meaning people who are skeptical of the elections, who disavow mainstream media) would pick up on right away. We're not really (for the most part) out there conversing with the general public, so we can't really see how they're being swayed as a whole. Most people on /pol/ have already decided who they will vote for. That's why I appreciate when Anon5 provides information like this.

blurred red and white striped pattern, which suggests a stage or podium setting. In the foreground, there is a person who appears to be speaking or giving a speech. The person is wearing a dark suit with a white shirt and a blue tie. They are holding a microphone in their right hand, which is raised slightly, indicating they are speaking. The person's face is not visible, focusing the viewer's attention on the text. When Obama first came on the scene, everyone was asking : Who is this guy and where did he come from?

His mother was a CIA cut-out who was recruited by various intel agencies in the late 1950's. The purpose was to infiltrate the Black Nationalists and the civil rights organizations that were forming at that time, such as the Nation of Islam, or Malcolm X, the Black Panthers, or even Martin Luther King. The "Powers that Be" had a lot of concerns about these.

In my book, Front Man, the most important chapter "Who is Barack Obama's Real Father?" posits that Frank Marshall Davis, a member and founder of Chicago's Communist Party was Obama's real father. He had to flee to Hawaii after the heat got too heavy in the United States. Davis acted as a mentor.

And when you look at his mother at this time in Hawaii. Supposedly, she was some poor, single, divorced woman. But actually, during Barack Obama's formative years, she travelled to 13 countries and worked for two CIA "cut-out" companies. One of her employers at the Ford Foundation was Peter Geithner (the father of Tim Geithner, the former Treasury Secretary of the United States). So here was Barack Obama's mother working for Tim Geithner's father at the Ford Foundation.

Pastor James David Manning says that Obama was recruited into the CIA during his time at Occidental College in California. Why would the CIA want to recruit this guy who supposedly was just some kid from a broken home.... (Very similar to Bill Clinton). In 1979, the most pivotal event going on was the Soviet-Afghanistan war. The CIA wanted someone who had some familiarity with this world. So here we have a kid who spent a lot of time during his youth in Indonesia. Some people say he was actually a Moslem and he definitely understood the Islamic culture. So they wanted him to provide his assistance to the Mujahideen as a CIA logistics agent.

[The image is a digital artwork featuring a muscular man with a bald head, wearing sunglasses and a red shirt with black suspenders. He is standing on a platform with a

large explosion in the background, which is orange and red with smoke and debris. The man is holding two guns, one in each hand, and appears to be in a fighting stance. The text "TRUMP" is prominently displayed in the center of the image in a bold, capitalized font. Below the explosion, there is a smaller text that reads "MAKE AMERICA GREAT AGAIN!" in a smaller, lowercase font. The overall style of the image is reminiscent of a comic book or graphic novel illustration, with a dramatic and intense atmosphere.]

Most of you are quite impotent in evaluating whether or not information is useful, even if this is all true it isn't useful without anything to back it up. I guess CTR has already won if we try to quell any sort of dissidence in the community, even if it is logical simply because we think someone is "CTR" or that they don't agree with someone who is clearly feeding into whatever we want to happen.

[The image is a digital illustration featuring a character that resembles a stylized representation of a sea lion. The sea lion has a brownish-gray fur with a white belly and a black nose. It has a mustache and is holding a cigarette in its mouth. The sea lion is looking at a computer monitor, which is depicted in a simple, cartoon-like style. The background is dark and appears to be an indoor setting, possibly a cave or a dark room. There are no texts or discernible brands in the image. The style of the illustration is reminiscent of a webcomic or a digital art piece, with a focus on the character and its interaction with the computer.]

The rest is very likely true (especially the Clinton insider info, that stuff has been voiced by other insiders several times) but this one I doubt.

You can't sabotage breaks on a train like you can on a car. It doesn't work like that, there are multiple fail-safes in place. I mean, I guess you could, but you would have to really get to work on the train for hours and hours, and it would be detected right away.

It's much more likely that it was human error (or intentional, if it's an act of terror) on the part of the engineer.

North Carolina is a toss up between Democrats and Republicans.

Guess where Soros, BLM and the media are going to apply most pressure on the "racist whites murder innocent blacks" narrative?

Rioting and "protesting" in Oklahoma would be a waste of time and only generate a

backlash there - forcing the issue in North Carolina might get some voters on board (or at least cause some people to lose confidence in their Republican views).

I'm starting to believe. This would not just indicate a cell in that area, but one that is exceedingly technically capable. Side note is that it may not be a cell, but a series of mild attacks in the area to give the impression of a cell without drawing the nation's attention completely. Why would a cell perform a series of attacks that has 4chan posters convinced it exists without actually doing any real damage? If we can piece it together, Intel agencies would have known long ago. So the smoke here smells more like false flag than legit terrorists. Now if we are talking Israeli cell, that would be different thing altogether and would make more sense.

Does Trump's growing support by the super-elite represent an issue for us? Wouldn't globalists fear his plans, or are they banking on him failing, being corrupted, or is he actually in their pockets?

What is DoD loyalty to the executive branch like these days?

Are there any plans or contingencies in place to dissolve the government?

How likely is it that the economy will totally collapse in the next 5-10 years? How severe are the projections showing it will be?

How likely is it that the west will be saved? Are we heading for destruction/being steered there?

Love you, man.

Some people who are knowledgeable in train operations and mass transit have said that to them, this looks like a deliberate attack,

Hoboken is a very busy train station. It is the only train station in the greater NY metro

area where every line has a stop.

The person in control of the train deliberately sped up when reaching the station. No train could have been going that fast just before the station, because going at that speed over switches would have caused it to derail. The only possibility is that the train was purposely sped up after the switches, while it approached the station.

tldr-ish version is

Anon was suggesting that one of the most fundamental reasons why the Left and Right are different is that they have different ways of viewing social capital. Leftists gamble it in hopes they gain a bigger turnout, while the Right conserves it and invests in it. The current policy of the leftist establishment is currently destroying their own social capital.

Its kind of hard to explain, you need to read it. It provides some very good theories onto what's happening right now on the chans.

[The image is a stylized graphic with a black and white color scheme. At the top, there is a large circular emblem with the letters "A" and "D" inside it, resembling a seal or a crest. Below the emblem, there is a depiction of a group of people, some of whom are holding objects like a briefcase and a cane. The people are depicted in silhouette, with their forms outlined in black against a white background. In the background, there is a detailed illustration of a classical-style scene with a large, muscular figure with a lion's head, which appears to be a depiction of a beast or a mythical creature. The figure is surrounded by other figures, some of whom are also holding objects, such as a sword and a briefcase. The overall style of the image suggests a blend of historical and fantastical elements, with a focus on the theme of power and the pursuit of wealth. At the bottom of the image, there is a quote in a smaller font that reads, "IT'S EASIER TO FIND PEOPLE WHO ARE LOST THAN PEOPLE THAT THEY HAVE BEEN FOOLED." The text is in a serif font, which contrasts with the bold, sans-serif font used for the emblem and the figures. The quote is placed in a decorative font, adding to the overall aesthetic of the image.]

[The image is a split-screen photograph featuring two individuals. On the left side of the image, there is a man with short, graying hair and a mustache. He is wearing a dark suit with a white shirt and a red tie. He is speaking into a microphone, which is positioned in front of him. The man appears to be in the middle of a speech or interview. On the right side of the image, there is a woman with long, straight hair. She is smiling and looking directly at the camera. She is wearing a black top and has a microphone in front of her as well. The background of the image is blurred, but it seems to be an indoor setting with a curtain or a wall in the background. The woman's expression and the microphone suggest that she is likely the subject of the interview or speech. There are no visible texts or logos in the image. The style of the image is a standard split-screen photograph, commonly used in news or media contexts to show two different perspectives or subjects.]

- > Moderator in the pocket.(who had a ear piece)

Yet trump still won well.(which is a good thing)

You seem confident enough to show that "someone knows something", so should it make a difference if you tell us how and why? Also being more specific on events really helps.

Not him, but even if he did he can't say anything lest he look like he is making rash accusations without evidence. I've sen the videos about the notepad and the finger signal, it doesn't surprise me in the slightest but it is near impossible to prove. The only way to prove it is capture some of these tyrants and water board them, which doesn't sound like that bad of an idea now that I mention it.
